As the first successful application of blockchain technology, cryptocurrencies have gone through more than ten years of development. From the initial Bitcoin to the current wide variety of tokens, the cryptocurrency market has experienced multiple booms and busts. Nevertheless, the ideas of decentralization and disintermediation represented by cryptocurrencies are profoundly influencing the traditional financial system. More and more institutional investors are beginning to pay attention to and participate in the cryptocurrency market, and governments of various countries are also actively exploring regulatory frameworks for cryptocurrencies to promote their healthy development.

“Not liking this Ethereum weekly MACD cross to red after 22 weeks green,” said analyst CRYPTO Damus in a Tuesday post on X, adding that the last three times the bear cross occurred were followed by significant ETH price drops.
